

# Algebra 2

## Student Grade Contract

This contract is designed to layout the responsibilities of the student and the responsibility the teacher has in this agreement. If one or more of the responsibilities of the student is not fulfilled, this contract is null and void.

### Student's responsibilities:

1. The student may not be absent more than 7 days in the semester.
2. The student's daily work average may not be below 90% for the semester.
3. The student's project grade may not be below a 70%.
4. The student must score a minimum of 60% on each chapter test.  
The student will be allowed to retest the chapter test twice in order to obtain a 60% (the maximum score allowed on retests). Retest within the allotted time (one week from original test date) for any regular chapter test that the student earns below a 60%. If a 60% is not obtained on the first retest, the student must retest a second time (within two or three days of the first retest).
5. The student must score a minimum of 60% on the semester exam.  
The student will be allowed to retest one time to obtain a 60% (the maximum score allowed on retests). Retest must be completed by the Friday of exam week.

### Teacher's responsibility:

- The teacher will give the student a grade no less than a C- for the semester.
